

## MISSION

The DTC Court strives to provide an opportunity to nonviolent offenders who suffer from substance abuse, to receive comprehensive quality treatment and support services including assistance with employment, educational programs, housing, and benefits. The goal of the DTC is to assist in the recovery from addiction and to rehabilitate participants in order that they may become productive, self-sustaining members of society and “break the cycle” of recidivism.

In addition, all participants will have access to a Case Manager that can assist in the provision of support services including information and placement for job training and placement; educational programs; housing; and health benefits. A Licensed Social Worker is also available to provide referral for those suffering with mental health problems.
